## IRMA HIGH SCHOOL WILL OPEN ON SEPTEMBER 26

IRMA SECONDARY CONSOLIDATED HIGH SCHOOL NO. 1 FORMED.

Last Saturday night the formation of the first Consolidated High School of Alberta was completed and arrangements made to start high school instruction by September 26th. The district consolidated includes six school districts contributory to Irma. One trustee was elected from each district. Mr. J. W. Wyatt, for Irma; T. N. Sellers, for Sunny Brae; J. B. Gulbraa, for Glenholm; H. Peterson, for Ross; A. A. Fischer for Alma Mater, and W. B. Peterson for Strawberry Plains. Mr. J. L. Hollinshead was engaged as principal and the secretary was instructed to order equipment and make all the necessary arrangements so that school could be opened by September 26th. The formation of this, the first consolidated high school district in Alberta was assisted by Mr. Morgan of the Department of Education and Mr. J. R. Love, M. L. A., of Irma.

### CHURCH NOTICES.

#### Sunday Services.

Sunday, September 18th.  
Strawberry Plains ..... 11 A. M.  
Sunny Brae ..... 1:30 P. M.  
Roseberry ..... 3:30 P. M.  
Irma (Song Service) ..... 7:45 P. M.

#### SUNDAY SCHOOL.

Irma ..... 11 A. M.  
Ross ..... 12 A. M.  
Alma Mater ..... 2:30 P. M.  
Sunny Brae ..... 3:30 P. M.  
Roseberry ..... 3:30 P. M.  
Geo. H. Elliott, Pastor.

## DRILLING STOPS AT FORT NORMAN COMPANY'S WELL

WORK WILL BE RESUMED IN SPRING WITH AUGMENTED CREW; DOWN 1500 FEET.

Edmonton Journal—Confirming in every detail the Journal's report of Saturday announcing that the Fort Norman Oil Company has discontinued drilling operations for the season after reaching a depth of just over fifteen hundred feet, F. H. Stover, driller in charge at the Fort Norman well, who arrived in the city on Sunday from Fort Norman states that the reason for the discontinuance of operations was the fact that the drillers ran out of casing. When drilling was started in July it was fully expected that oil would be struck at a depth of not more than a thousand feet, and consequently insufficient casing was taken in.

The experience of the Fort Norman company, it is claimed, proves that the oil-bearing strata takes a considerable dip. This is shown by the fact that the Imperial Oil Company struck oil at something like eight hundred feet, while the Fort Norman failed to bring in a well at a depth of 1512 feet. A considerable flow of gas was struck between 1340 and 1400 feet.

Manager Stover was accompanied to the city by a party of six drillers. Two men have been left at the well for the winter and will make preparations for the reception of the full crew which will be on the job in the spring.

### NOTICE

Collection proceedings will be commenced on all accounts and notes owing me that are not settled on or before Sept. 16th, 1921.—A. A. Dickson, 9944, 85th Ave., Edmonton, 21-2

## FEDERAL ELECTION MAY BE HELD ON NOVEMBER 28TH

WRITS MAY BE ISSUED ON OCTOBER 4TH FOR COMING ELECTION

Ottawa, Ont., Sept. 15.—The week-end has developed no announcements regarding the cabinet, but the number of politicians arriving has increased. H. H. Stevens, M. P., has arrived from Vancouver, and S. J. Crowe, M. P., is still here. The former will certainly be in the cabinet while Mr. Crowe is uncertain as to whether he will again contest his constituency or not.

Griesbach of Edmonton is also here. It is announced in Montreal that Mr. Meighen has arranged for cabinet representation for Quebec in the Hon. Charles Doherty goes out and Hon. C. C. Ballantyne, does not withdraw his resignation.

It is also stated that Sir Lomer Gouin will be a candidate in the election in Portneuf, Quebec. As there is also a desire to hold the election before the cold weather comes and as fifty-five days must lapse between the issue of the writs and polling, the time for cabinet making is somewhat circumscribed. November 28th has recently been suggested as would require the dissolution and issuing of the writs on October 4th. The expectation is that some announcement will be made within the next two or three days.

James Douglas in Ottawa, Sept. 12.—Canadian Press.—Mystery still surrounds the personnel of the new cabinet which is now in process of formation, but it is understood that Premier Meighen will be able to make an announcement before the end of the week. Western members have arrived in Ottawa to discuss the situation with the premier. Among the arrivals today were James Douglas, member from Strathcona, Alberta, and W. J. Blair, of Battle River. General Griesbach of Edmonton, is also in and will probably see the premier today.

Another call at the premier's office this morning was Col. John Currie, member for East St. John, Ontario. Col. Currie expressed himself as being optimistic in regard to the result of the election in Central Canada.

The prime minister has not yet announced the date of the election or the opening of his campaign. It is understood that his first campaign speech will be made in his own constituency of Portage la Prairie.

Prices Revert To Almost Pre-war Figures. Will Encourage Travel.

The Canadian National Railways, with a view of encouraging passenger traffic, will, effective, September 15, reduce cost for meals in dining cars of that company to practically what they were in pre-war days.

The reductions are in line with the general policy of making Canadian National dining car service one that will meet the needs and the means of all and at the same time render the service the public wants.

ON GOING TO CHURCH.  
"The church may not be the only place where men may profitably spend Sunday. Of course it is not. Nevertheless it is one of the very best places. It has been well tried. It has been knocked about badly by slackers and by enemies. It is the target for every fellow with a chip on his shoulder or a grouse in his system. It is too narrow for some, and too broad for others."

All this is perfectly natural; in fact inevitable. Since the church is based upon spiritual principles, which are admittedly difficult to understand let alone follow. In spite of all this, the church is a mighty force in the nation for keeping people toned up by high levels of thinking and acting. It has kept the affairs of the Moral Government before the attention of the people. It has been the force behind the building of homes for orphans, unfortunates, deficient, demented and aged. It has always been the backer and often the starter of philanthropic enterprises. The church is easy to slam and hard to replace. Kick if you like; but you will be wiser and happier to back it."—Theodore Roosevelt.

Do you want a man or a job? If so leave your name and address at the TIMES office and we will endeavor to help you. Lists will be kept of all vacancies. If your wants are supplied kindly inform us, so that your name may be removed from the list. There is no charge for this service.

## SAYS FORT NORMAN OIL FIELDS NOT YET PAST EXPERIMENT

Winnipeg, Sept. 15th.—The Fort Norman oil fields have not yet passed out of the experimental stage. Oil has been found in large quantities, but even the Imperial Oil Company is not yet satisfied that oil is there in sufficiently large quantities to justify the fortune that it will consume to bring it to market. This is the opinion expressed here today by William J. Hill, an acre mechanic, who has spent the past seven months in the north as an employee of the Imperial oil company. Mr. Hill states permanent quarters have been built at Fort Norman for the employees of the Imperial oil company and the men will be kept working all winter. They will be engaged in building work, assembling derricks, and may do some drilling, if weather conditions permit.

### Wedding Bells.

RENTON-CUMMINGS.  
The home of Mr. and Mrs. J. W. Cummings, 9919 88th Avenue, was the scene of a very pretty wedding Wednesday evening when their daughter Esther B. Cummings, became the bride of Henry Renton, son of Mr. and Mrs. J. Renton, 1122 81st Ave. Rev. Mr. Goings was the officiating minister. The rooms were beautifully decorated with sweet peas and asters for the occasion. To the wedding strains of the march played by Miss Mable Pecknold, the bride entered the drawing room on the arm of her father, who gave her in marriage. She was lovely in a wedding gown of cream satin, with overtones of lace veil to match and carried a shower bouquet of opelia roses and fern. The bride couple were unattended. The bride lived for several years on her father's farm in the Greenfield district.—Wainwright Star.

MORE LIGHTS NEEDED.  
With the train arriving as it does at 9:30 P. M., several of the citizens have suggested that the C. N. R. authorities be notified that Irma has an electric light plant capable of providing sufficient light to show patrons of the road their way from the train to the station. With the local freight train arriving before the passenger train the platform is usually littered with incoming freight which passengers have great difficulty in getting by in the dark.

### LOCAL NEWS.

Mr. and Mrs. R. J. Tate left last Friday for Waldemar, Ont. on a visit.

Mr. Thos. Coulman is visiting friends in Ontario.

Born to Mr. and Mrs. W. E. Carter, a boy, on September 15th.

Mr. A. McDermid has returned to his home in Edmonton.

Mr. Ross McFarland made a trip to Edmonton last Tuesday.

Threshing was delayed from Wednesday of last week till yesterday on account of the wet weather.

Mr. Wm. Reed of Edmonton has been spending his vacation with friends in the Irma district.

Mr. D. Skiles, who has been spending his vacation in Irma returned to Edmonton Monday.

Mr. J. L. Hollinshead the teacher for the new high school arrived in Irma last Wednesday.

Mr. Frank Peterson returned home from Lacombe and Edmonton where he had been gathering samples for the Government exhibits.

Mr. W. Brooks of the local dairy wishes us to state that he is in a position to supply a few more customers with fresh milk and cream.

Mr. O. Chase and Don McKillop arrived in Irma Monday evening from Michigan. They intend spending some time in the district among their old friends.

Mr. and Mrs. Phillip Hardy and four daughters motored from Arlington, South Dakota, after visiting relatives in this district they left here to visit friends in the Bawlf district. Mr. and Mrs. P. J. Hardy motored to Bawlf last Sunday to see them again before they left for their home.

## Sunday School Will Hold Rally Day

SUNDAY SCHOOL RALLY DAY  
SUNDAY, SEPT. 25TH

Grand Sunday School Rally—2 p. m. Evening Service  
Song Service—7:45. Preaching service 8 o'clock p. m. Everybody Welcome.

## Ross Items.

Mr. and Mrs. James Kennedy, who have rented their farm to Rodolph Gephard, intend going to reside in Edmonton soon.

Mr. and Mrs. Donor motored from Saskatchewan on a flying visit to friends here last week.

Ross School which has received several much needed repairs and improvements, was opened for the fall term on Monday.

The recent frosts have done very little damage in this neighborhood. Nothing seems touched by it, except squashes, cucumbers, corn and tomatoes.

The Congregation and Sabbath School of Ross are holding Rally Day Services on Sunday, Sept. 25th, beginning with usual preaching service at 11 o'clock, and an appropriate program of music and recitations will be given at the Sunday School Session. All interested are requested to come, and an especially cordial invitation is extended to anyone in the district who has not been a steady attendant, to be present.

A chicken dinner is to be served.

The Junior G. G. I. T's expect to resume their regular weekly club-meetings this week.

## Tax Sale

SALE OF LANDS IN THE MUNICIPAL DISTRICT OF KINSELLA No. 421.

Notice is hereby given that certain lands in the Municipal District of Kinsella No. 421 will be offered for sale for arrears of taxes and costs at 1 P. M., at the School house at Kinsella, on Saturday, October 29th, 1921. A printed list of these lands may be obtained from the Secretary-Treasurer of the Municipality.

Unless arrears of taxes and costs be sooner paid the Treasurer will proceed to sell the lands at the time and place mentioned.

Dated at Kinsella, the 5th day of September, 1921.

24th BLAKE H. GREEN,  
Treasurer.

## Tax Sale

SALE OF LANDS IN THE MUNICIPAL DISTRICT OF BATTLE RIVER No. 423 FOR ARREARS OF TAXES.

Notice is hereby given that certain lands in the Municipal District of Battle River No. 423 will be offered for sale for arrears of taxes and costs in the Village of Irma, on the Third Day of December, 1921, at the hour of Two o'clock, P. M.

A full list of the said lands may be seen in the Irma Times issued on the 16th day of September, 1921.

Dated at Irma this 13th day of September, 1921.

24th R. J. TATE, Treasurer.

## NOTICE

MUNICIPAL DISTRICT OF BATTLE RIVER No. 423.

Take notice that certain lands have been sold under the Tax Recovery Act by the Municipal District of Battle River No. 423 and that the time at which the period of redemption provided by law will expire is the Fourteenth day of November, 1921. A full list of such lands can be seen in the Alberta Gazette of September the Fifteenth, 1921.

R. J. TATE, Treasurer.

## Buy From Us For Less

### FOR THE LADIES—

We have just received a splendid range of Corsets and can you both the quality and price are better than usual.

### FOR THE MEN—

Two new lines of All Wool Combination Underwear much lower in price than last year. The quality is excellent and they are both nice, warm comfortable goods.

## Disarmament and the Individual Citizen

The outstanding question in world politics today is disarmament—the reaching of some international understanding which will put an end to the feverish race between nations to outdo each other in the raising and equipping of enormous armies, the construction of great navies, the inauguration of powerful aerial squadrons, and the development of chemicals and the sciences along channels of destruction, and, with a cessation of such unholy and savage activities bring about an enormous lessening of the burden of taxation and the devotion of national resources to the improvement of the physical and educational well-being of the people.

Everybody is concerned in the consummation of such an international understanding, but the average man and woman nevertheless looks upon the problem of arriving at an agreement as being the sole business and responsibility of Governments and statesmen; in a word, of those, for the time being, in authority in their respective countries. As a result, the average man and woman takes only an academic interest in this outstanding question, and proceeds daily to think, speak and act in a manner which operates to make the realization of world disarmament extremely difficult.

With the defeat of Germany and the abdication of the Kaiser, the overthrow of Russian Czarism, the smashup of the Austro-Hungarian monarchy, and the breaking-up of the old Turkish Empire, the last remaining strongholds of old world militarism and autocracy came to an end. With the exception of Russia, which is still undergoing the birth pangs of its new regeneration, the leading nations of the world are now under a democratic form of government. That is to say, the people are themselves the rulers and the arbiters of their own national fate. They, and they alone, can definitely and permanently decide upon national policy. Governments are the creatures of the people, and are controlled, made and un-made by the votes of the people. To an ever increasing degree, too, the women have an equal voice with the men in determining the fate of Governments and the national policies of their homeland. If the people once make up their minds that there shall be disarmament, that they will no longer pour out their hard won earnings to be used to supply machines of war wherewith to destroy their fellowmen, Governments will, because they must, obey.

There is, however, it must be admitted, a fighting instinct inborn in the whole human race. It cannot be wholly eradicated, nor would it be well for the race if it were. It is the instinct which leads the race to push ever onward and overcome seemingly insurmountable obstacles. It is the fighting instinct which makes for progress. But the time is long past when that instinct should be so perverted as to result in a striving for mastery of others through the brutal, animal method of destruction—the employment of strong arm methods against the weak.

After all, what is one of the most fruitful sources of national ill-will, leading to the making of warlike preparations by one racial group of people against another? Is it not to be found in the pin-pricking policy which so many people thoughtlessly indulge in at the expense of the people of another race, color or nationality? The people of one country make ridicule of the habits and customs of another. This is resented and a feeling of animosity and ill-will is engendered whereas a mutual recognition of each other's good qualities, which is just as easy of cultivation, would quickly develop a feeling of admiration.

The newspapers of a country quickly reflect the views and feelings of the people among whom they circulate. If there is a pin-pricking tendency among the people, it is not long before the press is engaged in it, and the sharp sayings of the press in one land are quickly seized upon by the press in another country, and soon a wordy warfare is on stirring up the passions and prejudices of one nation and people against another, and forever cultivating ill-feelings by raking up all the old quarrels and troubles of bygone ages. Visitors from a foreign country are chagrined and humiliated by careless remarks about their country, flag or people, and they return home entertaining anything but cordial feelings towards the country in which such remarks are uttered. Thus, from comparatively trivial cause, there arise those national misconceptions and distrust of other peoples which, when some difference of opinion occurs between two countries, are quickly fanned into a flame and a condition of public opinion created which makes it extremely difficult, if not impossible, for the Governments of the opposing countries to make necessary compromises in order to reach an amicable settlement. And it is against just such contingencies that armaments are maintained.

The ordinary citizen can, therefore, do much to bring about world disarmament by merely keeping a close watch upon his tongue and by steadfastly refusing to indulge in, what is after all more or less senseless and certainly utterly futile, carping at and criticism of other nations, races and people.

### What He Said.

The Sunday School teacher was talking to her class about Solomon and his wisdom.

"When the Queen of Sheba came and laid jewels and fine garments before Solomon, what did he say?" she asked presently.

One small girl, who evidently had experience in such matters, replied promptly: "Ow much I've want for the lot."—London Evening News.

Patronize your local merchant and thereby help to build up your home town and community.

### Skilled In Disarmament.

\* Marshal Foch, it is now suggested, may come to the United States as military adviser to the French delegation at the disarmament conference. The Germans will testify that the marshal knows how to disarm a nation.—Providence Journal.

Ninety per cent. of the world's total output of real lavender oil comes from the vicinity of Lyons, France.

When crab meets crab they side-step.

## Good Low Cost Meals

BY LORETTO C. LYNCH

An Acknowledged Expert in All Matters Pertaining to Household Management.

"We are two women past thirty. With the general downward trend of prices, we find our salaries reduced. We have decided to quit our somewhat fashionable boarding-house and rent a few housekeeping rooms. The 'What to Eat' problem bothers us. I might say we will be able to get home at noon to luncheon, for we are selecting rooms close to the office. Will you be good enough to outline 'inexpensive, nourishing meals for several days?'"

A fearless cooker is a wonderful help to working women. A hot-cold bottle is another aid. Carefully plan a week's meals on paper. Then from the list do as much shopping for staples and semi-perishables, like butter and eggs, as possible, on one trip. If you have a good baker in your neighborhood buy your cake and pie as well as your bread if time and energy are at a premium.

The suggestions offered are low in cost, rather easily prepared and fill all the requirements of average diet.

### Breakfast.

Oatmeal, milk and sugar; whole wheat bread and butter or butterless cereal coffee or coffee with an equal amount of hot milk added, or cocoa made with milk; stewed prunes.

### Luncheon.

Lentil and tomato soup; cold corned beef; whole wheat bread, butter or butterless; tea and coffee,  $\frac{1}{2}$  milk or cocoa.

### Dinner.

Lamb stew with vegetables (carrots, potatoes and onions); whole wheat bread, butter or butterless; custard pie; tea or coffee,  $\frac{1}{2}$  milk or cocoa.

### Breakfast.

Wheatena, milk and sugar; dates, graham bread and butterless; coffee,  $\frac{1}{2}$  milk or cocoa.

### Luncheon.

Macaroni and cheese; stewed tomatoes; graham and rye bread and butterless; coffee,  $\frac{1}{2}$  milk or cocoa.

### Dinner.

Bean or lentil loaf; Boston brown bread; stewed onions; apple betty; milk and sugar; coffee,  $\frac{1}{2}$  milk or cocoa.

### Breakfast.

Cracked wheat, milk and sugar; rye bread and butter; coffee,  $\frac{1}{2}$  milk; apple.

### Luncheon.

Vegetable soup with crackers; whole wheat bread and peanut butter; stewed figs, cocoa and coffee.

### Dinner.

Corned beef hash; stewed cabbage; whole wheat bread and butterless; rice or tapioca pudding made with milk molasses and raisins; coffee,  $\frac{1}{2}$  milk or cocoa.

## Brighton's Super Cinema

Brighton's latest attraction is a super cinema and restaurant, which has been built at a cost of \$400,000. It accommodates 3,000 people, and has an organ which cost \$2,000. Over 300 attendants and waitresses are employed.

A mammoth office building just completed in Detroit has more than four miles of corridors.

**Your Home Medicine Chest.**—Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Electric Oil. Its manifold usefulness in relieving pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Electric Oil for relieving rheumatic and sciatic pains, treating sore throats and chests, coughs, burns, scalds, cuts, bruises and sprains.

### Spitful Thing!

Mrs. Jones (who "chairs" at a house where her daughter is housemaid)—My word, they have got some fine things. Why their dinner service is in a hundred and five pieces.

Mrs. Smith (spitefully)—Yes, your daughter dropped it, I suppose?

### Minard's Liniment used by Physicians

Be honest if you can—otherwise your patrons will purchase their canned goods elsewhere.

J. Fenimore Cooper couldn't write unless he had gumdrops to chew. He bought them in large quantities, and as he munched them he evolved the stories for which he is famous.

## Many American Sailors

Over Seven Thousand Enter Canada From U.S. in Six Months

A total of 7,110 persons entered Western Canada from the United States during the six months ending June 30, 1921. They brought with them personal wealth to the value of \$2,445,804, and effects worth \$20,453. Out of the total number of immigrants, 2,600 gave their occupations as agriculturists, and will engage in farming on the prairies. Of the total 4,892 were United States citizens, while the balance 2,218 were composed of Britishers, Frenchmen, Canadians, and Scandinavians.

### Probably.

Father (after a long search)—"Well, here it is. I wonder why one always finds a thing in the last place in which he hunts?"

Boy—"I 'spect it's 'cause when folk finds it, they stop hunting."—Dublin Weekly Times.

## POSSIBLY YOUR OWN WIFE

She may not look so young and pretty as she used to. If her cheeks are hollow and pale, if she is tired and nervous, her system needs a good remedy. Dr. Hamilton's Pills is a real medicine that is noted for restoring the bloom of health to sickly girls and women. Dr. Hamilton's Pills come up the entire system. Completion quickly becomes rosy, spirits rise, strength increases daily. Health, vigor and good looks will soon return to a faded woman, if she uses Dr. Hamilton's Pills. Sold everywhere 25c per box, or from the Catarthozone Co., Montreal.

### Looking For Work.

"Tom—"Surely you ain't lookin' fer work, Bill?"

Bill—"Oh, ain't I? The missus gets the bloomin' sack, an' then she 'as me up at nine o'clock to find 'er another job!"

## GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to children. The complaints of that season, which are cholera infantum, colic diarrhoea and dysentery come on so quickly that often a little one is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come, to remedy them as quickly as possible. No other medicine is of such aid to mothers during hot weather as is Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Blind for the whole 114 years of her life, said to be the record period of sightlessness, an Irishwoman recently died in a Kerry infirmary.

For years I have never considered my stock of household remedies complete unless a bottle of Minard's Liniment was included. For colds, rheumatism, toothaches or chilblains it excels, and I know of no better remedy for a severe pain in the head, or that will give immediate relief, than to inhale through the nasal cavity the vapors of this liniment. And as to my supply of veterinary remedies for my horses, I have never any misgivings as to their value. A recent experience in reclaiming what was supposed to be a lost section of a valuable cow under has again demonstrated its great worth and prompts me to recommend it to the highest terms to all who have a herd of cows, large or small. I think it an error in saying that all the patent medicines there is none that covers as large a field of usefulness as does Minard's Liniment. A real treasure worth for man or beast. CHAS. K. ROBBINS, Chiquito Point.

A desire for easy work or no work at all is what ails the whole human family.

Whether the corn be of old or new growth, it must yield to Holloway's Corn Remover.

### Taking Postal Chances

After August 1st you can send an unpaid postcard, which will be delivered to the one to whom it is addressed on his payment of 4 cents. Great scheme! The worst of it is any one can send you one. The only defence is to refuse delivery of unpaid mail. An unpaid letter will cost the addressee 6 cents, and may be worth while or worthless.—Owen Sound Sun-Times.

### Catarrhal Conditions

Catarrh is a local disease greatly influenced by constitutional conditions. It is the residue of constitutional treatment. HALL'S CATHARRH MEDICINE is taken internally and acts through the blood upon the Mucous Surface of the system. HALL'S CATHARRH MEDICINE gives the patient strength by improving the general health and aids Nature in doing its work. All Druggists. Circulars free. E. J. Chesley & Co., Toledo, Ohio.

If man's organs had been formed on the same plan as those of a canary, he would, barring accidents, live to 300 or 400 years.

### Rays Cause Sunstroke

Sunstroke is caused, not by the sun's heat, but by the inevitable violet rays of the sun.

Minard's Liniment Lumberman's Friend

## Farmer's Wife Pays Debt Of Gratitude By Relating Experience

"If I could say just what is in my heart to say about Tanlac, everybody who suffers like I did would go out and get a bottle at once," said Mrs. A. Pieper, wife of a well-known farmer living at Cottonwood, Sask.

"For years I had indigestion so bad that I couldn't eat a thing without suffering misery afterwards. Nothing agreed with me, and at times I was so bloated up with gas I would have awful smothering spells. My nerves were in a terrible state, and I was bothered a good deal with constipation. I also had violent headaches, and at nights slept so little I never

felt like getting out of bed in the morning.

"Tanalac benefited me in every way and I feel like a different person now. I eat three hearty meals a day and never have a sign of indigestion. My headaches are gone and I sleep all night without waking, and when I get up in the mornings I am as bright and cheerful as I was when I was a girl. I feel I owe a deep debt of gratitude to Tanlac, and the only way I know how to repay it is to tell people about what it did for me."

Tanalac is sold by leading druggists everywhere.

## Sodium Sulphate Deposit

Company Developed to Exploit Discovery Made Near Wainwright

A large deposit of sodium sulphate has been discovered on Baxter Lake, east of Wainwright. From analyses it appears that the lake itself is strongly impregnated with this chemical, while a test made at the lake's edge gave thirty-two per cent. sodium sulphate. A company has been developed to exploit the find.

If a woman's watch stops every time she looks at it she is foolish to waste money on cosmetics.

Praises this Asthma Remedy. A grateful user of Dr. J. D. Kellogg's Asthma Remedy finds it the only remedy that will give relief, though for thirteen years he had sought other help. Years of needless suffering may be prevented by using this remedy at the first warning of trouble. Its use is simple, its cost is slight and it can be purchased almost anywhere.

### Knowing Motor Car's Age

Among the ever-increasing volumes of collected information on specific subjects is a motor car index, published in London, which, according to the notice, has been compiled for the purpose of enabling any one to tell the age of any motor car under examination. Apparently the way is now clear for modernizing a seriously antiquated saying. It would, of course, now read: "Do not look a gift car in the index."—Christian Science Monitor.

The stock operator who buys and sells for future delivery evidently believes in a hercater.

**PIPE OR PIPELESS HECLA MELLOWAIR FURNACE**

## First on the Appetite List

ONCE the crispness and charm of Grape-Nuts have been tested by the family, there's one item that stands prominently out in the marketing list thereafter.

### That's Grape-Nuts.

The twenty hours of continuous baking have produced, from the natural richness of wheat and malted barley, a food that is uniquely sweet with sugar developed from the grains themselves, and whose crispness and flavor make a delightful appeal to every member of the family.

And Grape-Nuts is soundly nourishing—a great builder of health and strength.

Served with cream or milk, as a cereal for breakfast or lunch, or made into a pudding for dinner.

See that your marketing list includes this delicious, economical food, today. All grocers.

"There's a Reason" for Grape-Nuts

## The Most Tragic Fraud Ever Imposed Upon Any Nation

Millions are perishing from hunger and its offspring, pestilence, in Russia, and the sympathies of the world are aroused by the kinship of suffering. Russia, which has endured the horrors of war, has been wrung by revolution, and has seen its Government displaced by a rule of incompetence and corruption, now faces starvation.

Russia, yesterday, under Czarist regime, was one of the great granaries of the world; today, under Lenin and Trotsky, the bins are rotting and the storehouses are bare. The Bolshevist leaders are blaming the drought and the extreme heat, for Nature is often made the scapegoat of man's incompetence. The foundations of Russia's sufferings are not so readily shifted, for their basic cause lies in Bolshevism, the greatest and most tragic fraud that has ever been imposed upon any people.

It is no new thing to hear Lenin and his partners declaim about the woes of Russia, but this time Bolshevism cannot blame the blockade nor the machinations of Capitalistic England. It is, indeed, to the capitalistic countries that Russia today turns her suppliant gaze. The aid of the despised Cadets is invoked to placate the foreign nations whom she has warred against and shandered, and the machinery of the discredited Czarist rule is refurbished to gain sympathy—and dollars.

The serfs of the towns, the factory slaves, who were forced to walk and talk and eat by card, grew faint with lack of nourishment, and lost the moral fibre that in other days would have spurred them to resist their autocrats. But the peasants, the world over, know but one tyranny—the tyranny of the soil. He might give the semblance of obedience when he heard the crack of the master's whip, but Lenin found the lessons learned in Berlin were as false as the masters who taught them.

Moscow has kept its heel upon the factory workers, but Lenin was forced some months ago to accept the alternative of the overthrow of his rule, or the substantial modification of his confiscatory land measures, and he was world-wise enough to take the latter course.

Lenin could absorb a thousand creeds of as many German philosophers, he might set up Marx as his God, but sooner or later he was bound to be brought up against the dead wall of truth—that "man will work only for a reward."

Today, when Bolshevism looks around at the empty barns, the full realization of this basic fact of all economics is brought home. The peasants of Russia have only seen for their own needs. They have rebelled against the Communism that Lenin sought to foist upon them. The dictator's eleventh-hour repentance came too late.

Still the full tale of Bolshevistic incompetence is not yet told. It is because Russia has had a distorted creed forced upon her that her agony today is increased. Capitalistic countries finding themselves short of any staples through drought or from causes that have set up an abnormal condition have been able by their own efforts and through their despised but elastic system, to obtain needed supplies from sister nations. They have developed their system of international barter and trade and have established their machinery of distribution. Not so with Communism. It must depend upon its own resources. Communists are sometimes apt to forget that if their followers are to enjoy all the profits and prizes of years of prosperity they must be content to suffer the pangs and the losses of the lean days. If the Communists are to be a self-sustaining close corporation they cannot fairly appeal to Capitalism when their system breaks down.

Lenin and his associates have today but one basis of appeal to the nations that they have fought and labelled—the basis of human sympathy. They can come as suppliants asking for bread for their children and the poor dopes whom Moscow has so shamefully deceived.

Their pleas, indeed, would come with better grace if they would doff their clownish garb and the black masks of armed robbers and set to work to build up a new Russia, not on the threadbare tenets of a German-made philosophy, but on the foundations of common sense, experience and humanity.—Montreal Star.

Besides the parrot there are more than twenty different kinds of birds that talk.

The Baltic Sea has an average depth of only forty-three yards.

W. N. U. 1383

### Unity of Britain and France

#### An Appeal For a Better Understanding Between the Two Nations

The London Daily Telegraph prints a communication "to our friends across the Channel," signed by a number of distinguished Frenchmen. The letter contains a strong appeal to the people of both nations to never relinquish the friendly feeling now existing as the outcome of the late war. It points out the dangers that may arise through misunderstandings caused by the game of politics, and the rivalries and schemes of a few individuals for private ambition. "This task devolves upon open and enlightened minds," the letter states, "those of intelligent men who, setting aside appearances, or preconceived systems, try to penetrate the very soul of the people and try to realize their essential affinities or differences."

The communication proceeds: "We shall never forget how in 1914 the whole of the British people, though taken unawares by war, sprang to our aid with the immense resources of their free empire. Alone amongst all the belligerents Great Britain enrolled 5,000,000 volunteers in the defence of right, and 800,000 of those new sleep their last sleep in the soil of France."

After pointing out that France is not a militaristic nation, and that victory has not turned her head, her post-war attitude is further analyzed: "If, in some of its phases, French opinion seems to English eyes unduly nervous in certain respects, it must be remembered that our country has suffered so cruelly from wanton aggression and has had to wait so long for the promised reparations, that it is entitled to be exacting where its safety is at stake. Let neither side ascribe importance to clamorous and irresponsible manifestations of such nervousness. That should be left to those who hope to benefit by our disagreements. It behoves us rather to educate the public, to teach it how far the voices from across the Channel are to be trusted, and to make clear the true tendencies of the great currents of national thought at the present time."

### Pit Silos Better Than Older Type

#### Walls Lined With Ten Inch Plaster Reduces Frost

Pit silos for Saskatchewan have been advocated to the Regina Board of Trade by P. G. Holden, of the Agricultural Extension Department of the International Harvester Company. It was emphasized by the speaker that the western farmer must not depend entirely on the wheat crop as a source of livelihood, and that they must have other means of production if the wheat crop fails. In speaking of silos, Mr. Holden stated that the pit silo outlasted the older type. They are made by digging out pits and lining the walls with a ten inch plaster. Pits may be dug to any depth, and the cost of the lining would not exceed \$30, which was a saving when compared with the \$300 of the standing silo. Silage thus stored will not freeze, and wind and lightning cannot cause damage to the pit silo.

### Taber Irrigation Project

#### System Expected to Pay for Itself in One Year

Paying for an irrigation system in one year is the unique experience of the Taber project, comprising 17,000 acres, just east of the irrigated area operated by the Canadian Pacific Railway. It cost sixteen dollars an acre to build the ditches and laterals and conservative estimates of the average yield on the 13,000 acres under crop are twenty bushels to the acre, as against eight bushels on the dry land adjoining. This is the first year that the Taber project has been in operation.

### E.C. Salmon for Europe

One of the largest single lots of salmon to leave Vancouver on shipboard left recently on board the Royal Mail Steam Packet steamer "Somersetshire." The salmon was consigned to France, United Kingdom, Belgium and other continental countries and consisted of 65,000 cases or between 2,500 and 3,000 tons.

Be fair to your local merchants. Ask to see his goods and compare prices before sending your money to the mail order houses. You will find that it pays.

Play is the work a man does that isn't compulsory.

### An Agricultural Enemy

#### Immense Losses Incurred to the Farmer Through Weeds

Officials of the United States Department of Agriculture have estimated that weeds do \$300,000,000 worth of damage to the agricultural interests per annum. In Canada also the yield of field crops is enormously reduced from this cause. It is hardly necessary to refer to a bulletin issued by the Seed Branch at Ottawa on "Weeds and Weed Seeds," that gives a list of nearly three hundred varieties known to this country, to realize that weeds lower the yield, depreciate the quality and value of crops, and add to the cost of production. They rob the soil of plant food and moisture; they crowd out more useful plants, being harder and generally more prolific, and they attract injurious insects and harbour fungus diseases. They are spread from district to district through transportation facilities by hand and water, through impure seed; the wind carries them long distances and animals distribute them through their excrement and from lodgement in their coats. Every province has adopted legislation looking for the suppression of noxious weeds, and this year an instruction train was operated through the three prairie provinces to give information to farmers regarding the weed problem. It might be mentioned the publication referred to gives a minute description of the majority of the weeds, with methods that should be followed for their eradication. It also states that no fewer than over 150 different species of weed seeds were found in sample of grain and seed submitted to the Ottawa Seed Branch for analysis in one year.

### Cornwell's Ship Now Obsolete

#### Light Cruiser Was In Thickest Of Jutland Battle

H.M.S. Chester, one of the most famous ships of the British Navy, has arrived at Chatham from Sheerness and has taken her place among the fleet of obsolete vessels in the river. She is to be sold. It was on the Chester that Jack Cornwell won his V.C. at the Battle of Jutland, for remaining at his post when the rest of the gun's crew had been killed. Pounded by German shells during this engagement, the Chester's decks became strewn with dead and wounded. With all but two of her guns out of action, the light cruiser remained in the thickest of the battle, and nearly one-third of her crew were either killed or wounded. After the battle she made her way into Hull in a terribly battered condition. The Chester is a comparatively new ship, having been commissioned in May, 1916, two weeks before the battle of Jutland. The suggestion has been made that she should be kept as a naval relic.

### Mineral Production In B. C.

#### Value Is Seven Per Cent. Greater Than In 1919

Despite the decided fall in prices of metals, mineral production in British Columbia for the last year totalled \$35,543.84, seven per cent. greater in value than the production of 1919, which was valued at \$33,296.33, according to the annual report of the ministry of mines. The report contrasts this showing with the announcement of reductions in mineral output in other sections of the continent. Last year's figures bring total mineral production of this province for all years, since records have been kept, beginning with 1852, up to \$706,192,978.

### Wireless To Be Revolutionized

An important announcement may be looked for at any moment now from the Marconi Company, who are conducting experiments with a new wireless receiving apparatus that is expected to revolutionize the sending and receiving of wireless messages. The details of the invention are being jealously guarded owing to the fact that some of the countries that will desire to make use of the invention are outside the patents convention.

### Some Colt

A pure-bred Percheron filly at the Pennsylvania State College celebrated her first birthday by tipping the scales at 1,280 pounds which is some 500 or 600 pounds more than the weight of the ordinary yearling colt. The filly had two gallons of skim milk a day besides the regular ration of grain.—Yough's Companion.

### British Columbia Efforts

The movement of shingles and copper from British Columbia to the Atlantic ports via the Panama Canal is continuing. Every week about ten million shingles are shipped, and a thousand tons of copper go monthly. Recently paper and pulp has been added to the list.

### As West Grows So Will East

#### Heavy Load of Taxation Carried By Small Population.

Every new settler in the Canadian West means at least one new job for someone in the Canadian East. Those who fear that an immigration campaign that would bring in settlers might add to the unemployment in Eastern Cities should bear this truth in mind. One in the West means—at least—one in the East.

The present immigration policy tends to ADD TO rather than subtract from the total of the unemployed in Canada. At present a small Western population is bearing the whole cost of the railways, telegraphs, Government and other public services in the West. It is admittedly a heavy load. Though these costs are reduced to a rock bottom minimum, they take from the Western farmer nevertheless, a comparatively large share of his total earnings. Sometimes, in hard crop years, he tends to become discouraged, he may even—on isolated cases—abandon his farm, and when he does, another idle man must also be reported in the East.

But with more immigrants, more settlers, more farms, these overhead costs in the West are reduced. Ten people are paying the bill instead of five. A poor crop does not matter so much. Then costs grow lighter in the only way costs can be lightened. Their numbers increase. Then purchasing power expands. And there is more employment in the East. The ban on immigration is a step towards greater unemployment in the West. This cannot be too strongly emphasized.

### Good Fishing In Northern Lakes

#### Fishermen at Lesser Slave Lake and Lac La Biche Are Doing Well

Up to August 13th 115,000 pounds of fish of all descriptions had been taken from the waters of Lac La Biche. Of this amount 80,000 pounds represented the white fish catch, the balance being pickerel, pike, and other varieties of the conifer fish. Fishing in Lac Biche commenced on July 15th, and reports from the fishermen show that they consider this year's operations will double the output of last year. The quality of the fish is excellent, and everyone in the Lac La Biche fishing industry is wearing a broad smile. Over 25 fisherman, holding commercial licenses, are employed in removing the finny inhabitants from the depths.

Fish are plentiful on the Lesser Slave also, and up to August 14th over fifteen cars left the lake ports for outside points. Taken all round, the fishing is better this year, and in addition to the whitefish a very heavy catch of pickerel is reported up to the end of last week, from the east end of the lake.

Last year the total pickerel catch for the entire season amounted to 56,000 pounds, but in the present year the catch has already totalled 46,000 pounds and is still a clear month and a half of fishing. The catch in the eastern end of the lake is the best for many years, but the western section is apparently devoid of fish. More pickerel than usual have been caught.

Well over 150 fishermen are employed on the Lesser Slave in commercial fishing, the catch up to August 13th being approximately 350,000 pounds of all varieties, 300,000 pounds of fish from the Lesser Slave is being shipped out in excellent condition the majority of the product finding a market in Chicago, where Alberta whitefish is exceedingly popular.—Edmonton Bulletin.

The individual who goes into the habit of giving way to depression is on the broad road to ruin.

## Steamboating On Saskatchewan River In The Late Seventies

By O. G. MAS-ES (Little Clerk).

(Copyright)

The Hudson's Bay Company had with much energy and considerable expenditure placed two steamers on Lake Winnipeg and several boats on the river above the Grand Rapids, and as this system was fairly successful for transportation of freight, it gradually replaced the Red River cart transport. Occasionally one of the river boats would reach Edmonton; twice I think in one season was the record of the Nor-West, which, by the way, was the most successful craft of them all, carrying two hundred tons on an exceedingly light draft of water.

American captains and mates from the Mississippi and Missouri Rivers were employed exclusively, but our own natives speedily took to piloting and some of them became experts. The crews were all Indians, chiefly drawn from The Pas and Grand Rapids, but a few plain Indians from above Prince Albert would occasionally engage for a trip or two.

I was receiving and shipping freight in the summer of 1877 at Grand Rapids (Mr. Alex. Matheson, transport manager), and when loading the Nor-West on one occasion I noted the big fat Yankee mate who was standing on the deck at the gangway singing a rough chanty song to the Indians passing him heavily loaded; from one to two hundred pounds a man being the general load. Occasionally, to hurry matters, he would kick an Indian in the posterior while passing, and break forth into, "Come along! Come along! You sons of—"

"Come a running," and so on. Amongst the Indians was a wild-looking big chap who hailed from Fort Pitt, with a long, flat, of jet black hair hanging to his waist, wearing a broad belt of parchment buffalo hide studded with brass tacks, and a big scalping knife, the sheath of which was decorated in the same way. His whole costume consisted of a cotton shirt, a pair of cloth leggings and a breechcloth. I saw this Indian's eyes flash as the mate was doing his kicking stunt, and thought he looked dangerous, so walking down the gangway I tapped Mr. Mate on the shoulder and warned him that there was not a crew of southern negroes, but red Indians, and dangerous men to monkey with. His reply was a stream of profanity. Let me attend to the freight checking and he would handle the cargo, and so on. I returned to the warehouse and kept my eye on the mate. The big Pitt Indian had a heavy load placed on his shoulders, and down the gangway he went with his shirt fluttering in the breeze. He received a tremendous kick be-

hind, and in an instant Mr. Mate was on his back and the Indian furiously stabbing him. Several of us rushed to the rescue, and it took us all our time to hold the savage, who was in a mad fury, yelling that he had never been insulted before and only death could wipe out the stain. We noted some blood on the knife and thought it was all up with the mate, but fortunately he had managed to twist his body and dodge the knife and was only bleeding from scratches. Never was a man so changed. He was too scared to go back to his duty, as he felt certain either his opponent or the other Indians would scalp him, and we finally had to ship him into Fort Garry by the lake boat. Gradually the Yankee mates were done away with and our sturdy Scotchmen replaced them. These, though slower, had the faculty of getting on well with the native crew.

Indians dislike profanity and the Cree, whose language is generally understood throughout the north, have no swear words in their vocabulary.

The captain of the Northcoast that summer was an artist in many and strange oaths, and when these failed him in moments of emergency, down went his hat on the deck and on it he jumped with both feet. His desperate language had made trouble on several occasions, and he was warned to guard his speech. We had just loaded the Northcoast with 160 tons of freight for Prince Albert, working day and night as usual at the depot, especially as the water was steadily falling in the Upper River, and away she went. On the evening of next day arrived a canoe with a letter from the captain stating he was tied up with a strike and all his crew on shore. The chief asked me to go up at once and try to settle the difference (as I had managed to do on other occasions), so within half an hour I was on my way up the river with an Indian and bark canoe, and a heavy paddle ahead of me. The scene of the strike was at Chemulawin at the west end of Cedar Lake, and fortunately it being calm, we were able to make the long traverse safely and finally reached the steamer.

Captain could hardly articulate for rage and every word was an oath. The poor boggard did not seem able to help it. I noted the men all sitting and smoking and drinking and grinning at the boss' discomfort. I coaxed him into the cabin and told him the situation was a serious one and he was liable to lose his job if he did not cool down. Well, he was helpless, so asked what I would advise and I gave him this ultimatum. (To be continued)

### Co-Operative Marketing

#### Saskatchewan Societies Show Big Increase in Membership and Business Handled

Saskatchewan co-operative marketing societies had an increase of \$1,125,103 in the amount of business handled last year, compared with the turnover in 1919. The membership was increased by 646, making the total at the end of the year 18,894. The paid-up capital invested increased from \$362,251 to \$466,009. Fifty-four societies marketing livestock shipped 912 carloads and received therefor \$1,529,309. The value of supplies sold was \$5,885,385. The total business handled amounted to 7,314,659.

### Reassuring

#### Nervous Tourist: "What if the bridge should break and the train fall into the river?"

Conductor: "Don't worry, sir, this road won't miss it. It has a lot of trains."

### Chinese Divide Profits

In China it is a custom widely observed for a shopkeeper to divide about ten per cent. of the profits among the employees at the New Year.

The buzzing sound made by flies is produced by the rapid vibration of the wings, which may amount to 600 beats a second.

The largest negro church in the world is in Chicago, with more than ten thousand members enrolled.

Each cubic yard of air contains about three hundred million particles of dust.

Humming birds are so called because the vibration of their wings makes a humming noise.

Most of the cats in Liberia are of a bright red tint and they are very conspicuous in the moonlight.

### Livestock Situation

#### U. S. Tariff Bill Will Hurt Alberta Cattle Industry

The cattle industry of Alberta is going to be hard hit by the new U. S. tariff bill. The West found its nearest and best market to the South and spent all its time during the past several years developing it. If the West would now finish and slaughter its cattle and seek the European markets it would serve its own best interests and teach a lesson to Uncle Sam at the same time that the Western Prairies are not a mere adjunct to the United States, but a busy agricultural and industrial center able to take care of itself.

### New Source Of Silk

#### Process Discovered to Use Tissue of Horses and Cattle

Discovery has been made of a process by which the muscular tissue of horses and cattle can be converted into silk—a use being thus found for condemned cows and horses killed because of accident or old age. The flesh of the animal is extracted in a liquid, which separates the muscle fibres by dissolving the substance that holds them together. Then it is soaked in another liquid, which strengthens the fibre and gives them a silky character. Silk thus obtained can be rubberized and made water proof by soaking it for some hours in a bath of rubber.

The sea has a great effect on temperature; in hot climates it reduces the heat and in cold climates it mitigates the cold.

Bald-headed men are apt to sneer at the chap who parts his hair in the middle.

The sea is gradually getting more and more friendly. Give your local merchants a chance. Buy at home.

## Do We Take Small Accounts?

We do more than that. We invite them—welcome them—and take good care of them. If you wish to open a Savings Account for any particular purpose—or wish to teach the children to save by having an account in each child's name—do not hesitate to do so because the amounts to be deposited will be small. \$1. is sufficient to open a Savings Account, and deposits of \$1. are always welcome.

All changes of advertisements must be in not later than Tuesday to insure change for that week.

WESTERN CANADA  
IN GRIP OF SPELL  
OF BAD WEATHER

## Cold At Calgary

Calgary, Sept. 12th.—Although a rather cold spell is said to be general over the southern part of the province harvesting operations have not been curtailed to any extent. In the Calgary district the harvesting is well advanced and threshing outfits are appearing in many districts.

While a number of jobs at the local bureau yet remain to be filled, there is no great scarcity of men. Prices are \$4.00 a day.

Snow fell to a depth of three or four inches at Lethbridge last night. The weather is clearing at Calgary, although still cold.

## A Week's Delay

Regina, Sept. 12th.—Harvesting in Saskatchewan will be suspended until the end of the week at the earliest. Rain and snow since Thursday have put a complete stop to operations in the fields. After fifty-eight hours continuous rain and snow, Sunday was cold and windy in the southern part of the province. If this cool weather without heat or rain continues for three or four days, but little damage beyond the delay will have been caused to the grain, which is now practically all stacked.

The holding up of harvesting will enable the provincial government and railway to fill the ranks of the harvesters. The shortage during the last two or three weeks has become serious and as a result wages have risen to \$5.00 a day.

## Harvest Hands Idle

Saskatoon, Sept. 12th.—Cold damp weather accompanied by a light fall of sleet rain and snow, has put a stop to harvesting operations in this district for several days. The city is crowded with harvest hands who have been temporarily thrown out of employment by the unfavorable weather.

## No Frost In Manitoba

Winnipeg, Sept. 12th.—Wet weather the past two or three days caused a halt in harvesting operations in Manitoba, reports indicating that the rainfall has been general over the province. Up to the present no reports of frost have been received and there has been no snow. No shortage of labor is reported here. Government officials are still confident that Manitoba will have a premier yield.

## More Snow at Lethbridge

Lethbridge, Sept. 12th.—Two inches more snow fell in this district last night, bringing the total in the storm to five inches. Threshing is at a standstill. All cutting is completed and east of the city 80 per cent of the threshing good start only has been made on threshing operations. The moisture is expected to result in heavy rye seedling operations during the remainder of the month. An inch of moisture has fallen in the storm and the lowest temperature recorded was 30 on Saturday night, which will not cause any damage, even to garden truck.

G. W. V. A. WILL NOT  
BE ABANDONED

Ottawa, Sept. 12.—An unqualified declaration on the question of the amalgamation of ex-service men's organization in Canada was made by dominion president, R. B. Maxwell, of the Great War Veterans' Association at the conference of eastern Ontario veterans in Ottawa branch G. W. V. A. club house, today.

He declared that it was useless to talk amalgamation until unity was obtained. While the G. W. V. A. stood four square on unity and harmony, he asserted, the members were not prepared to abandon an organization which had been laboriously built up during the last five years until they were sure there would be something of greater value and service to take its place.

The meeting was attended by ex-servicemen from about fifteen Ontario branches of the G. W. V. A. The sessions will continue this afternoon. In the discussion of employment it was emphasized by the delegates that corrective methods should emanate from the dominion and provincial governments, and that it was not the duty of private citizens or organizations to undertake the responsibility in this respect.

## More or Less Funny

Here is another of the latest problems in arithmetic: If the bride is 25 years old and the groom is 25 years old how long will it be before he is looking for a younger woman?

In a great many weddings the bride looks stunning. And in most cases the bridegroom looks stunned.

Overheard on the front porch: "Do you know that you are the very first man to kiss me," she said sweetly. "Well, I must say you don't act like it," he said. "Oh, that is easily explained," she said, "I have been taking a correspondence course in love-making."

Never speak harshly of one who is absent. Somebody may tell them.

A lady in Holden called the hired girl down for having so much company and said: "You have more callers in a day than I have in a week." "Well, mum," she replied, "perhaps if you tried to be a little more agreeable, you'd have as many friends as I have."

If a fellow tries to kiss a girl and get away with it, he is a man. If he tries and doesn't get away with it, he is a brute. If he doesn't try but would get away with it if he did try, he is a coward. If he doesn't try and wouldn't get away with it if he did try, he is a wise man.

Two young ladies of Viking were watching the ball game at the fair when one of them remarked: "Isn't that fine? We have a man on every base." "Why that's so," said the other, "so have they."

A young fellow here was calling on his best girl the other evening when suddenly the fuse of the electric light blew out and left them in darkness. He hustled around and got another fuse and fixed up the light and then proudly remarked: "Don't you think I am quite an electrician?" "Huh! You're no electrician—you're an idiot!" she replied.

An old gentleman approached a young fellow smoking a cigar on the street in Ryley the other day and said: "My boy, I am seventy-five years old and have smoked a cigar in my life." "Well, if you like to follow me," said the boy, "you can have the butts when I'm done with it."

Woman is a riddle and keeps the men guessing. But somehow the men don't seem inclined to give her up.

"You look badly cut up," remarked one of our citizens to another on the street here the other day. "I don't doubt it," he replied, "I got home late last night and my wife looked dargers at me."

## TWENTY YEARS AGO

Ladies were bustles. Nobody swatted the fly. Nobody wore white shoes. Green was a color. Most young men had "livery bills." You never heard of a tin lizzie. You never heard of a "tin lizzie." Milkshake was a favorite drink. Nobody cared about the price of gasoline. The hired girl drew \$1.50 a week. The butcher "threw in" a chunk of liver.

Folks said pneumatic tires were a joke. Nobody "listened in" on a telephone.

## PHILLIPS

The school has started under the new teacher. The parents will see that the children attend regularly.

Mr. Jackson who spent a few days at the Brickman ranch took home a good bag of ducks.

Mrs. J. D. Elliott and baby left her father's Tuesday to join her husband at Drumheller.

Mrs. and Mrs. Warren Peterson of Irma, visited at the Brickman ranch last Sunday.

Mrs. Clarke paid a visit to Edmonton this week.

We are sorry to hear that Mr. Gardiner is on the sick list. It is a hard time for farmers to get sick, hope it is no more than a cold.

Miss Pennington, of Edmonton, is visiting at the Brickman ranch, returned to the city Saturday. Harry Cooper went with her to attend school.

H. L. Cooper has shipped several cars of cattle from here and is shipping again this week. He expects to buy grain in this district this fall.

Mr. and Mrs. Loftis of Kinsella were visitors at the Brickman ranch last Sunday.

H. A. Thompson was down looking after a bunch of horses he left here a year ago. He took seven to Edmonton with him. He is running a wood yard on the south side in partnership with Harry Caine.

Mrs. Draper's daughter, Mrs. Simpson who has been at her father's for some time left on Tuesday for her home in Alberta. Mrs. Draper, who has been in Washington taking care of her father has returned bringing her father with her.

Joe Brickman had a Bee last Monday filling his new silo. Joe has installed a milking machine.

Except the green feed the crops are pretty well cut in the district. Mrs. B. B. Conger leaves for her home in Toronto shortly. She has been visiting with her son in Phillips since the death of his wife last April. We wish to thank the ladies of the Quince W. C. T. U. who came out to the service. It was highly appreciated by those present. It was surely a musical treat.

Mrs. Alice Smith gave a dinner party in honor of her husband's birthday which was enjoyed by a number of the folks. A cousin of Mrs. Stokes got off the last train Wednesday. Mrs. Reid and children who have been visiting Mrs. Stokes returned to Edmonton last week.

## VIKING

Arrangements are being completed to hold a Teachers' Convention at Wainwright during the last week in October. All teachers of the Wainwright Inspectorate are asked to attend. Further details regarding the Convention will be forthcoming at a later date.

Frank Lander, of Fernie, B. C. is a visitor at the home of his sister, Mrs. Phil Spear, near Bruce. Mr. Lander is a miner and has been pit-boss in the same mine at Fernie for twenty years. He intends to purchase land in the Bruce district.

The death of William C. Dodge eight months old son of Mr. and Mrs. George Dodge took place in Edmonton, Saturday. The body was forwarded to Viking where interment took place. Mr. and Mrs. Dodge were in charge of the arrangements.

Last Thursday while in the field clearing a blinder tree meeting their eyes, Chas. Rice, farmer, living north of town, met with a very painful accident. He was unseated from the blinder when the horses became frightened and pulled the machine right over him. The big main drive wheel passed over his chest and caused some painful bruises. His bones were broken. Mr. Rice will be laid up for several days.

Mr. G. F. Degler, of Mattoon, Illinois, is now attending to business matters. Mr. Degler farms over 1000 acres in Illinois and also has some considerable land holdings in this district which he is arranging to have same cleared of brush and broken up.

He is greatly pleased with this district and expressed a desire to make his home here but his extensive farming interests in the States require most of his attention. Both land and farm produce are at a low ebb in the Central States, Mr. Degler says, and renters of the high-priced land are having a hard time meeting their payments. Mr. Degler is also interested in the oil development of this section.

Harvey Cartwright and A. A. Long returned last Thursday from their auto trip to B. C. with Max Stenger. They were gone about three weeks. Mr. and Mrs. Stenger remained in Vancouver. While they saw some very good country both in Washington and B. C. (and some awfully poor country too) they were well satisfied to return here and call Viking "home" for a few years to come. They state that the B. C. climate is not what it is cracked up to be.

The Musical Eckards, billed as the Swiss Bell Ringers, on their 25th tour of the Western Provinces gave their programme in McLeod's hall last Tuesday evening before a large crowd. This was the third or fourth appearance of the Eckards in Viking and each time they have had a good crowd out to hear them play and see their perform. Their selections were of the same order as on their previous appearances here, featuring old and well-known songs and sketches. Some well done others not so good.

The hand bell selections and the trombone numbers were excellent. The dancing and singing was very ordinary, in fact an attempt at vaudeville was mediocre. Baby Bella Johnson danced well but her voice will no doubt improve with age. "Old Man" Eckard is still on the job doing the big bass bells.

A dance followed the evenings entertainment.

Isaac Amott living south of town was found in his house by neighbors last Thursday lying unconscious on his bed. His wife with a deep cut in his head. Medical attention was called and on Friday morning he was taken to Edmonton for treatment.

Mr. Amott regained consciousness after reaching the hospital and is reported to have stated to the authorities that he had a fainting spell and fell against the stove with the above result. An operation had to be performed and we understand that he will lose the sight of one eye. The police it is reported, have some suspicions of foul play, and are making a further investigation into the case.

Two or three new cases of small-pox are reported in this district on which quarantine has been placed. The cases are thought to be of a mild type but no efforts should be spared by the health authorities to prevent its spread as an epidemic of a virulent form may be the result of lax quarantine methods. Vaccination has proven to be the only real preventive against the loathsome disease and those who have not been vaccinated are taking an unnecessary risk of contracting small-pox which may prove fatal or very disfiguring.

Representatives of the Hospital Board, Town Council, Board of Trade and School Board met Tuesday evening and discussed plans for the laying of the corner stone of the Viking Municipal Hospital building now under construction. The contractors will have the foundation in proper shape for the ceremony which has been set for Wednesday, September 21st, at three o'clock.

Premier Grenfield, Hon. Charles Stewart, A. G. Reid, minister of Health, and W. K. Whiston, secretary of the provincial hospital board, will be here to conduct the ceremonies.

The school children of the Viking site headed by the Viking band, and they will sing several patriotic songs.

On the platform with the distinguished visitors will be representatives of the local Hospital Board, Town Council, Board of Trade, Clergy, Reeves of the Municipalities in the hospital district, Pres. U. F. A. G. W. V. A. Women's Institute, W. C. T. U., U. F. W. A. School Board, Agricultural Society, and medical profession.

All business places will be closed from 2:30 to 5 o'clock in the afternoon to give everybody a chance to attend the ceremonies, which a large crowd from the surrounding district is expected.

This will be a good opportunity for the people of this district to meet the new premier and listen to the speeches of the various members of the party.

It ought to be a great day in the history of this district.

## EDMONTON GAS FRANCHISE AGAIN IN LIMELIGHT

NORTHERN ALBERTA NATURAL  
GAS COMPANY MAY FOR-  
FEIT ITS FRANCHISE

That the legal fight between the city and the Northern Alberta Natural Gas Company may be settled without extensive litigation was stated by a high civil official today. It is learnt that certain overtures have already been made to the city to bring to an end the dispute which has been waged under varying conditions for a year.

Cancellation of its franchise is said to be proposed by representatives of the company on the condition that the city is willing to have its claim for damages arbitrated by a court. It was first proposed that the city should withdraw its claim in full if the company agreed to give up the franchise, but later it was suggested that the amount of damages should be fixed by the courts.

May Refer To Council  
No official communication has been made to the city, but officials have been approached as to the desirability of ending the dispute along the line stated. Should further action be decided upon it is likely that the council will be asked to consider the matter at an early date.

There is no doubt that such a proposal from the company would receive a ready hearing on the part of the city, at the fact that there is at present a franchise in existence has been found to be a stumbling block in considering other gas propositions. With the board wiped clean so far as any franchise is concerned, the field will be open to the highest and most satisfactory bidder and a new contract can be made in which the grounds for disputes can be largely eliminated.

Viking Gas Leases  
Should the company willingly forfeit its franchise, civic officials say they are not exercised as to the city's interests in the gas leases in the Viking field. Communications have been received by the city from the federal government indicating that federal arrears on these properties are paid up the city's interests will be protected. If the lands revert to the federal government after cancellation of the franchise, the city's position would be secure.

No recent action in the case against the company has been taken by the city owing to the absence of the president, E. Coste. He was expected to return from the Old Country last month, but is still reported to be away.—Edmonton Journal.

## Wants, Notices Strays, Etc.

## NOTED PICTURE COMEDIAN HELD ON MURDER CHARGE

"FATTY" ARBUCKLE IS ACCUS-  
ED OF DEATH OF ACTRESS  
IN SAN FRANCISCO

San Francisco, Sept. 11th.—Roscoe "Fatty" Arbuckle, motion picture actor, was booked on a charge of murder late last night in connection with the death Friday of Miss Virginia Rappe film actress following a party in Arbuckle's suite at a hotel here last Monday. Arbuckle was locked up in the city prison for the night. Arbuckle was charged, according to assistant District Attorney Milton Ulen under the section of the California code providing that life taken in rape or attempted rape is considered murder.

Captain of Detectives Duncan Matheson showed that there was an attack made on the girl.

"On Monday a formal complaint will be filed against Arbuckle," Matheson said. He added that Arbuckle refused to make a statement.

Under the California penal code no bail is allowed to a person charged with murder. If District Attorney Matthew Brady returns to the city in time, the case is expected to be presented to the grand jury tomorrow night, according to Matheson. An inquest will be held Thursday.

Miss Rappe, who died Friday, was removed from Arbuckle's rooms in a hotel last Monday in a critical condition after the party at which five men and four women were present. Autopsy surgeons said that death was due to peritonitis, superinduced by internal injury.

## NEW FORCE IN POLITICS

It is said that 125,000 women voters will be added to the lists at the forthcoming general elections. This will need some thinking out on the part of the politicians. Our women have had little experience of public affairs. In a young country the first desideratum is material maintenance. When, however, in any part of the country, women form clubs and discuss Browning with the tea cups and above all, insist upon participation in public affairs, we have reached the epoch of leisure and culture, and bread is only a secondary consideration in the general life.—Montreal Gazette.

Will visit Irma on THURSDAY of each week commencing FIRST WEEK IN OCTOBER to receive pupils for Instruction in Pianoforte, Playing and Harmony.

PUPILS AT ALL STAGES OF PROFICIENCY WILL BE ACCEPTED.

## FEES PIANOFORTE HARMONY

Per term of ten lessons, each 40 minutes \$12.50

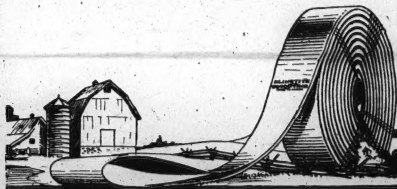

Per term of ten lessons, each 30 minutes, \$10.00

ALL FEES MUST BE PAID IN ADVANCE UPON RECEIPT OF FIRST LESSON, OR AT THE COMMENCEMENT OF EACH HALF TERM. THOSE WISHING TO TAKE UP THE STUDY OF PIANOFORTE SHOULD COMMUNICATE DIRECT TO HOLDEN AT ONCE, STATING AGE, STAGE OF MUSICAL ADVANCEMENT AND TIME MOST CONVENIENT FOR LESSONS SO THAT ARRANGEMENTS CAN BE MADE ACCORDINGLY.

## Are Klingtite Belts— To Good for the farm?

Some say they are!

But no good farmer will admit that he is satisfied with inferior belts. Farm powerwork needs just as fine a belt as does the city factory. That is why Goodyear Klingtite Belts are taking such a strong hold. Klingtite Belts may cost more to buy. But they certainly cost less to use. They last longer. And they do the work better. If better belt interests you, see us about Klingtite Belts.

## HEWETSON WOMAN ON ROAD TO RECOVERY

Mrs. Mary Hewetson, who was assaulted and robbed on Thursday night last on the track at Sedgewick, is favorably progressing in the hospital at Sedgewick, and it is expected that she will be able to attend court on Thursday next, when the assailants will be haled before J. S. McDonald, J. P., for the preliminary hearing. The two prisoners were taken to Hardisty last Friday afternoon, and the following morning were escorted by Constable Rae of Hardisty to Fort Saskatchewan, from which place they will be brought to Sedgewick for preliminary hearing. At one time since the outrage was perpetrated it was thought that the unfortunate woman would succumb to her injuries, but she has had expert attendance and will no doubt recover.

## World Happenings Briefly Told

Good yields are being secured this year by Indians on the reserves in Saskatchewan, according to W. M. Graham, Indian commissioner.

Wireless telephone instruments will be installed on a number of important German express trains and receiving instruments will be placed in hotels and embassies.

Decreases in export of Canadian farm produce to the United States because of the operations of the emergency tariff act, are shown by Canadian Statistical records covering July.

The boycott of Canadian Government Merchant Marine vessels on the Pacific by organized firemen and sailors, following an announcement recently of a reduction in wages, has been lifted.

The Panama Government has notified the State Department in Washington that Panama will not resist by force the demands of the United States that Costa Rica be permitted to occupy the disputed Colono territory.

Sweden's total population at the end of 1920 amounted to over 5,904,000, according to the Central Statistical Bureau's preliminary figures just published. This is an increase during 1920 of 57,000, and a record increase since 1861.

Miss Catharine Jane MacKay, a former president of the American Home Economics association, and well-known throughout Western Canada in educational circles, died at Winnipeg Beach recently. John M. MacKay, of Saskatoon, is a brother.

The report that wild ducks banded near Lindsay, Ont., last year had been shot so far south as the Island of Trinidad, recalls that two ducks were shot in Alberta in 1920 that had been banded in New York State, proving that these birds travel great distances along their air trails.

General Henry Alexander Cockburn, of Midland, a veteran, and Indian Mutiny and numerous frontier wars, is dead at the age of ninety.

Announcement is made that His Excellency Baron Byng, Governor-General of Canada, has accepted an honorary membership of the Ottawa Rotary Club.

Efforts of workers in Russia to help famine sufferers are hindered by the fact that they themselves are weakened through lack of proper food. Famine is now paralyzing the strong and weak alike, and many men for whom employment is available, are too enfeebled to do anything requiring physical exertion.

## CHECK YOUR BOWEL TROUBLES

BY USING  
**DR. FOWLER'S  
EXTRACT OF  
WILD STRAWBERRY**

When you are troubled with diarrhoea, dysentery, colic, cramps and pains in the stomach, cholera, cholera morbus, heartaches, indigestion, bloated flukes, or any looseness of the bowels be sure and obtain a bottle of "Dr. Fowler's" and see how quickly it gives you relief. This wonderful remedy has been on the market for the past 76 years and we wish to warn you against accepting a substitute which may be dangerous to your health.

Mr. Samuel Bickler, Talamagouche, N.S., writes: "While visiting in Western Canada I had a severe attack of diarrhoea. After trying many proprietary medicines I got no relief but kept getting worse."

I was advised to take Dr. Fowler's Extract of Wild Strawberry, and I lost no time in doing so. I cannot hesitate in recommending it most highly, for when I had not yet taken half the bottle I was relieved. I must say that if "Dr. Fowler's" is given on a fair trial it will show its good qualities.

The price of the genuine is 50c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

W. N. U. 1333

## Live Stock Industry

Want Action Taken to Secure Market in U.S.

C. W. Peterson, western editor and rancher, suggests the formation of a Canadian pool consisting of government representatives, bankers, breeders, and capitalists to form an effective line of defense in view of the present condition of the live stock industry in Western Canada. He urged that immediate diplomatic negotiations be opened with the United States to procure for Canada free entry for animals and animal products, pleading that even an unlimited overseas market could not be compared with free access to the Chicago market. He believed that if the situation were placed before the Canadian public and they were appealed to there would be no trouble in subscribing \$100,000,000 for the pool.

**Manslaughter In 2nd Degree**  
Using a razor—bad stuff—but many people do it for their corns. The only remedy that is painless and sure is Putnam's Corn Extractor, which does remove warts and corns, cleans them right off. Refuse a substitute for "Putnam's," 25c everywhere.

## A Woman Homesteader

City Girl Makes a Success of Farming in Western Canada

Another name added to the list of women who are successfully operating farms in Western Canada is that of May V. Hazlett, an English girl who for four years has lived alone on a homestead in the Touchwood Hills and made it pay. Her brother, who homesteaded the land, was killed in the Canadian forces at Vimy Ridge, and Miss Hazlett, who was working as a stenographer, and tired of the eternal pounding, determined to go contrary to the advice to sell the farm and though she had never lived in the country, decided to operate it herself. Success has attended her efforts and she now owns several head of horses, a fine bunch of cattle, and has more than one hundred acres under cultivation. She is again reversing the order of things as having built a Western home she is returning to England to marry her fiancé and bring him out to the Saskatchewan farm. She is an ardent advocate of homesteads for women.

Many mothers have reason to bless Mother Graves' Worm Expeller, because it has relieved the little ones of suffering and made them healthy.

## A Magnificent Panorama From Start To Finish

Canadian Pacific Rockies Is Wonder-land of Scenic Splendor.

There are periods in our lives when we all require a change—to live for a time in new environments and scenes—to get away from the things we have been looking at and working with day after day and month after month.

Cast aside your cares for the time being and flee to the Canadian Pacific Rockies for that refreshing balm to tired minds and jaded nerves, that necessarily accompanies a trip into this marvelous country. It is a wonderful land of scenic splendor, a land of mountain peaks, exquisite lakes, rushing rivers, stupendous glaciers and a thousand and one other attractions, all at your very door and easy to reach, via the Canadian Pacific.

Hotel life, camp life or any life you desire at any one of the nine delightful resorts such as Banff, Lake Louise, Glacier, Emerald Lake and the Lake Wapta and Lake Windermere Camps.

Summer tourist fares now on sale to Pacific Coast points offer a splendid opportunity to visit the Canadian Rockies, while the Canadian Pacific operate three trains daily each way, including the de luxe "Trans-Canada" Limited.

Optional route, stopovers are included, go one way and return another, but let the travel part of your vacation be among its keenest joys by choosing the courteous, comfortable and dependable service of the Canadian Pacific Railway. R-10

**Sweden Wants Wheat**  
A letter has been received by the Vancouver Board of Trade from a Stockholm Broker inquiring into the possibility of Canada exporting wheat to Sweden and it is quite possible that some wheat which is being shipped to Europe from this port via the Panama Canal will find a market there.

Probably the two most awkward things in the world are a woman throwing a stone and a bachelor holding a baby.

Miss Green (at her first ball game)—Isn't the pitcher perfectly splendid? He hits the club nearly every throw.—Boston Transcript.

The one redeeming feature of the pawnshop is the ticket.

## Where Winbreaks Are Necessary

Gardens on Prairies Must Be Protected by Hedges

That the time will come when the prairies will be hedged and dotted with gardens and blooming flowers, of ripening fruits and of delicious vegetables, was the prediction made recently by W. Macoun, horticulturist of the Dominion Experimental Farms, who has almost completed a tour of inspection of the Dominion's experimental farms. Mr. Macoun is a son of Professor John Macoun, of Ottawa, the famous naturalist and explorer, who died last year in his nineteenth year.

Mr. Macoun said that he had seen on the prairies some of the finest gardens that could possibly be seen anywhere in Canada. But before the prairies can have gardens they must have hedges for windbreaks, Mr. Macoun added. "Set your hedges, and you may look for your garden," he said. "The hedges are coming. The Dominion experimental farms have more, far more, than paid for themselves by the wide distribution which has been given to the caragana hedge, which the Department at Ottawa introduced from Russia. It is indispensable to the small garden on the prairies. I attribute a great deal of the splendid results achieved in western gardening to the influence exerted by the experimental stations," Mr. Macoun declared.

Mr. Macoun said the present aim of the Department of Agriculture is to get earlier varieties of fruits and vegetables, and referred more particularly to the special need for earlier varieties of all kinds on the windswept prairies.

## Postage Meter Machine

Does Away With Necessity of Sticking on Stamps

New York has been introduced to the postage meter machine—a machine which makes every man his own stamp printer and does away with the necessity of sticking them on.

The National City Bank has the first one exhibited there.

The machine, recently approved by the post office department, operates on a principle similar to that of the government's automatic cancelling machines. As the letters are run through it, a square about the size of a stamp is printed, in which appear the words: "U. S. Postage—Paid 2 Cents."

The machine is equipped with a register which can be set only by post office authorities. When the register shows the user has stamped as many letters as he paid for, the machine stops and has to be taken to the post office to be reset.

**The Family Physician.**—The good doctor is always worth his fee. But it is not always possible to get a doctor just when you want him. In such cases, common sense suggests the use of a reliable home remedy, such as Dr. Thomas' Electric Oil, which is wonderfully effective in easing inflammatory pains and in healing cuts, scratches, bruises, and sprains. The presence of this remedy in the family medicine chest saves many a fee.

There are still half a million prisoners of war in Germany and Russia.

It's a lot of work to put up canned fruit, but the real job is getting the lids off.

## ABLE TO DO HER WORK

After Long Suffering Mrs. Peasey Restored to Health by Lydia E. Pinkham's Vegetable Compound

Toronto, Ont.—"I suffered with irregular menstruation, was weak and run down, could not eat and had no sleep. The worst symptoms were dragging down my back, and I sometimes thought I would go crazy and seemed to be smothering. I was in this condition for two or three years and could not seem to work. I tried all kinds of medicines and had been treated by physicians but received no benefit. I found one of your booklets and felt inclined to try Lydia E. Pinkham's Vegetable Compound. I received the best results from it and now I keep house and go out to work as usual. I am a new woman. I have recommended your Vegetable Compound to my friends and if these facts will help some poor woman use them as you please."—Mrs. J. F. Peasey, 387 King St., Toronto, Ontario.

If you are one of these women do not wait for four or six years as Mrs. Peasey did, but profit by her experience and be restored to health.

## Pain In The Loins Driven Out Quickly

That dragging, wearying sort of pain makes life a misery to many people. This pain is due to a passive inflammation of the adjacent tissue. Because every drop rubs in. More powerful because five times stronger, more penetrating because it strikes through soft tissue, more healing to pain, Nervine Liniment should be always on hand. Sold everywhere in large 35 cent bottles.

## Stake Oil Claims On Arctic Circle

Oil Claims Extend from Fort Norman to the Rim of the Arctic

Oil claims have been staked along the Mackenzie River right up to the Arctic Circle. The staking extends from a point several miles south of Fort Norman, which is 1,500 miles north of Edmonton, to another point within some fifty miles of Good Hope, a post just sixteen miles south of the Arctic Circle. The total distance of the oil staking along the Mackenzie River of this territory is now approximately 150 miles though not continued over this entire length.

## PAINFUL NEURALGIA TORTURING SCIATICA

Both Come From The Same Cause—Thin, Watery Blood

Most people think of neuralgia as a pain in the head or face, but neuralgia may affect any nerve in the body. Different names are given to it when it affects certain nerves. Thus neuralgia of the sciatic nerve is called sciatica, but the character of the pain and the nature of the disease are the same. The pain in neuralgia is caused by starved nerves. The blood which carries nourishment to the nerves has become thin and impure and no longer does so, and the pain you feel is the cry of the nerves for their natural food. You may ease the pains of neuralgia with hot applications, but real relief from the trouble comes only by enriching and purifying the blood. For this purpose Dr. Williams' Pink Pills are strongly recommended. These pills make new blood and thus act as a most effective nerve tonic. If you are suffering from this most dreaded trouble, or any form of nerve trouble, give these pills a fair trial, and note the ease and comfort that follows their use.

You can get Dr. Williams' Pink Pills from any medicine dealer, or by mail at 50 cents a box or six boxes for \$2.50. Write to Dr. Williams' Medicine Co., Brockville, Ont.

## Man's Amazing Endurance

Capacity of The Human Animal to Bear Privation.

If there is one thing which has been made clear to us in the last six years it is that communities and individuals have a capacity for endurance far exceeding all rational estimates in the previous years, says the Westminster Gazette. The enemy endures for years on a diet which by all scientific tests is insufficient to support life for more than a few months; the hunger strikers who ought to have died in three weeks lives on for six or seven; the nation which is manifestly bankrupt carries on with all the appearance of solvency and even prosperity for an apparently unlimited time; the strike which ought to have ended in complete exhaustion at the end of a month continues unabated after two months, and the community which ought to have been strangled by it is alive and cheerful and comparatively indifferent.

**What Profit?**  
The Appointing Power—Men who get on the federal payroll must earn their salaries from now on. Job Hunter—But if they must do that, why should anybody take a government job?

Half a Billion Dollar Crop

The Financial Times, in its latest survey of Western Canadian crop conditions, states that the wheat yield this year should be the most valuable the West has ever produced, worth at least half a billion dollars.

Miller's Worm Powders can do no injury to the most delicate child. Any child, or infant in the state of adolescence, who is infested with worms, can take this preparation without a grain of the stomach, and will find it in a sure relief and a full protection from these destructive pests, which are responsible for much sickness and great suffering to legions of little ones.

**American Capital Interested**  
Paul O'Leary, representing a party of Central American capitalists, was in Calgary recently to investigate the possibilities of wheat growing on a large scale in the Canadian West. It is intended to operate thirty thousand acres.

The deaf and dumb language was introduced in the year 1749.

Ask for Minard's and take no other

## A Cape Coat For Early Fall Days

By Marie Belmont.

The popularity of the cape is not likely to pass with the summer months. Its pleasing qualities are so much appreciated that there will be many interpretations of it for fall wear. This delightful coat, cut from a heavy silk crepe in a rich shade of brown, is designed with a spreading cape. It is lined with gold, which is revealed when the cape is flung backwards. The sleeves are cut wide at the wrist and are trimmed with beaver. This is also used for the crush collar that is set rather high about the neck. A brown velvet hat with small flowers made of golden ribbon completes the costume.

Keep Minard's Liniment in the house

**Alberta Red Clover**  
Red clover yielding at the rate of ten to six tons per acre has been harvested at the University farm, Edmonton. The clover is known as Atlaswede, a new variety, originated at the farm. It stood from thirty to thirty-six inches high, has a very fine stem and makes excellent fodder.

**Of Course Not.**  
Mother—Willie didn't give me any of the oranges?  
Mother—Didn't I tell you to give her the lion's share, Willie?  
Willie—Yes'm. But lions don't eat oranges.

Spend your money at home, thereby helping your own town and local merchants.  
Poverty would soon die out if babies were permitted to select their parents.

What is wisdom but having a great deal to say and keeping silent?

Drink

DELICIOUS and REFRESHING

DEPOT SODA FALLO

Missed his train—but not refreshment. Coca-Cola is sold everywhere.
